Standard and bespoke packaging

Working with clients such as BAE Systems, Remploy's packaging service has helped save clients thousands of pounds by minimising damage to products by providing bespoke solutions, including corrugated packaging, printed cartons and laminates.

As one of the UK's leading packaging companies, Remploy has recently won significant business with Marks and Spencer, working with their giant logistics provider Norbert Dentressangle. M&S have also included a powerful message on the packs extolling their links with Remploy. Remploy Packaging have also enabled other retail clients such as Bernard Matthews, Harrods and The Body Shop to promote their brands cost effectively with quality printed packaging. Our diverse customer base also includes Government departments and blue-chip multinationals.

How can we offer such a breadth of scope? Remploy Packaging operates out of five dedicated manufacturing sites. These sites are strategically located nationwide to deliver the logistical and communications benefits of a truly local service, covering the whole of the UK.

Remploy Packaging is unique amongst its competitors, as by choosing to use Remploy Packaging you significantly add to your companies Corporate and Social Responsibility (CSR) mandate. No other packaging company gives you such an advantage.

Corrugated Packaging

We manufacture corrugated packaging in all of our five UK factories. From a straight forward plain brown box, through to high quality complex die cut designs including Point of Purchase displays, Remploy Packaging is in position to design, manufacture and deliver your packaging solutions.

› Litho Laminates

Remploy Packaging is one of the very few UK packaging companies to be able to offer lithographic laminated packaging manufactured totally in-house. Litho' Lam' consists of high quality offset litho printed carton board or paper laminated to corrugated cardboard. This combination of the up to 6 colour litho print allied to rigidity and strength of corrugated packaging and is ideal for point of sale displays, shelf-ready packaging or added value customer facing transit packaging.

› Printed/ Litho printed Cartons

With a dedicated printed folded carton site, Remploy are able to provide both conventional and UV cartons for a wide range of applications. In house Cut and Crease and high speed in-line gluing complete the manufacturing process. All processes comply with Remploy's strict quality and hygiene requirements. Added to this, on-site regional consignment stock holding and call-off add up to a totally customer focused JiT business, attuned to the requirements of modern manufacturing.
